

Hot Tips for a successful Art on a Plate project:

Wash hands first and no snacks while drawing as sticky fingers can ruin your plate's processing. Ensure the drawing surface is also clean.

Please note ordering multiple plates or drink bottles off one drawing are possible, however these will be made off scanned images and a slight colour variation may result.

We encourage supervision of children during the project; specifically include all their important details such as names and dates on their drawings, so that the items become a memento of a point in time

PLATES

Use only WASHABLE (water based), FELT TIP PENS/TEXTA'S.

Write, draw or colour on the PRINTED SIDE of the drawing paper only. Don't fold the drawings.

The following pens/paint **CANNOT** be used:

- Fluorescent / highlighter pens
- Gold or Silver and metallic pens
- Colour change pens
- Crayons
- Oil Paint
- Paint or Fluorescent paint
- Pastels
- Coloured pencils
- Sticky tape
- Post it Notes
- White out/ Tipex
- Glue
- Photos
- Stickers

You **CAN** also use:

- Normal ink stamps e.g. smiley faces
- A light lead pencil for outlining (please erase any pencil which you don't want visible on the finished product)
- Hand and foot prints are best done using water based ink stamp pads.

If you use watered down paint (or any of the other products on the 'do not use' list) we will scan and print your drawings however, we cannot guarantee that the colours will be as bright as the original. Fluorescent or metallic pens cannot be scanned and you may have part of your drawing missing. For further clarification, please call us

DRINK BOTTLES

The following **CANNOT** be used: fluorescent or metallic pens/paints. You **CAN** use anything that can be scanned.

Keep words and important parts of the drawing 3cm from the edge of the drawing paper. Anything drawn in this area may be left off the plate or become smudged during processing.
